Notice to the public SUPPOSE you are today paying 50c a tube for your tooth paste (and there are many very good dentifrices selling today at that price). Suppose, like most people, you buy about twelve tubes during a year. Now if you knew that you could buy as good a dentifrice as can be made and still save each year the price of 25 loaves of bread or 60 bars of soap or 40 pounds of sugar or a box of fine cigars—could you conscientiously fail to take advantage of such an opportunity? That is exactly what you do when you buy Listerine Tooth Paste at 25c for a large tube. Figure it out for yourself.
